## CHRYSANTHEMUMS

### CUT FLOWER VARIETIES

#### ROOTED CUTTINGS

#### *When Ordering Mum Cuttings*

Please indicate the earliest date delivery will be acceptable and the maximum number of cuttings that can be handled in a shipment.

Our growers suggest — **for the best service** and in order to **assure delivery of cuttings when you want them**—that it is necessary to have your order **at least six months in advance of shipping date**. Orders on shorter notice will receive the best possible attention. Changes or cancellations must be received at least thirty (30) days before shipment.

Where we are unable to ship very close to the requested delivery date, we will advise you of our grower's best estimate of delivery. We suggest that you advise whether substitutions will be acceptable, when giving the order.

Fifty (50) rooted cuttings of a variety is the minimum that can be supplied. More than fifty (50) of a variety must be in multiples of 50.

Shipments will be sent Railway Express unless otherwise instructed.

When shipments arrive in an unsatisfactory condition for any reason — notify your Express Agent at once and have him mark on your express receipt the condition of the shipment or give you a "Joint Inspection Report." Bring claim against delivering company. We hold good order receipt from Transportation Company and cannot be responsible for damage caused by their negligence.

All cuttings will be taken from plants apparently free of "Stunt" the previous season. We cannot be responsible for any cuttings where this difficulty may develop.

Rooted cuttings delivered before May 1 will set premature buds if night temperature rises to 60 degrees or more. Additional lighting will prevent this. Use 60 watt bulbs spaced 4 feet apart and 30 inches above the plants two to five hours, depending on season. We cannot be responsible when this condition develops.

#### **Use this table to determine quantity prices.**

Prices are for the number of one variety ordered, **for one specific delivery date** and not for the total number of the order.

For pinching dates refer to Time Table for your latitude.

\* Recommended for Pot Culture

### **Timing!**

Varieties respond differently to shading, some requiring as little as 7 weeks, others 14 weeks. All varieties are listed here with the approximate number of short days required to develop a flower. By using a combination of lights and shade, chrysanthemums may be had in flower the entire

year. Where a crop is to be grown unpinched it may be planted 3-5 weeks later. Usually this period is required so that plants may get well into growth before being pinched. We have prepared a flowering program suitable for this area and will be glad to send it upon request.

## ***Quality "Mums"***

Can only be produced if the grower has at his finger tips all the new understanding that is the product of research by our colleges and experiment stations. Your results will depend on the skill and the efforts of yourself and your men. The best way you can keep up with the newest developments is to join the "Chrysanthemum Society of America." Write to James Mikkelsen, Secretary, P.O. Box 1536, West End Station, Ashtabula, Ohio.

THE NUMBER OF WEEKS MENTIONED ABOVE IS THE REQUIRED PERIOD OF SHORT DAYS NEEDED TO FLOWER.

### FIVE NEW VARIETIES

By SIM

**Spicy Rose.** A beautiful shade of vivid rose pink. A color lighter than that of Sidney Littlefield, but deeper and much brighter than that of Virginia Rose. The flower is medium large, and of very attractive form. Plants are strong and prolific. Stems are long. Splitting is very slight. Keeping quality is good.

**Butterscotch.** Yellow-buff with slight pink tinting, but no lines or flaking, in center. Larger, strong, prolific plants. Long stiff stem at all times. The first flowers are very large and full. Splitting occurs in the autumn, but is negligible after that. It keeps splendidly. Is best grown in a warm location with all the light possible.

**Baby Bronze.** Yellow or bronzy-buff with slight pink tinting, but no line or flaking, in the center, giving the bronzy appearance. The flower is medium to small, but full and of beautiful form. The stems are long and strong at all times. Plants are vigorous, and this is one of the most prolific varieties grown. There is no splitting. It keeps perfectly.

**Raspberry Ice.** White petals almost completely overlaid with pale orchid or lavender, the color closely resembling that of raspberry sherbet. The flowers are medium large and of attractive form. Plants are bushy and prolific. Stems are long. Keeping quality is good. There is no splitting.

**Red Beauty.** A scarlet, very similar in color, form and size to Wm. Sim. The stems are long and are stronger than those of Wm. Sim. The plants are large. Keeping quality is excellent.

There are no restrictions on any of the above five.

**\$20.00 per 100      \$150.00 per 1000**

### 1952 INTRODUCTIONS

By BAUR-STEINKAMP

**Janie.** An excellent new salmon pink, a little lighter than Netta and larger. Janie was awarded the Dorner Memorial Medal (the highest award given a new variety) by the American Carnation Society at Dayton in 1951. The production and growth are good and there is every reason to believe that it will be widely grown within a short time. Sold under a three year grower's agreement.

**\$22.00 per 100      \$180.00 per 1000**

**Excellence.** The largest carnation we know of. The color is a medium salmon pink and the flowers are full and well formed. They reach a diameter of five inches regularly. Production is good considering the size and quality. Sold under a three year grower's agreement.

**\$25.00 per 100      \$200.00 per 1000**

**Mohawk.** Yellow variegated with pink stripes, brighter than Chief Kokomo. The flowers are top quality and the production good. Sold under a three year grower's agreement.

**\$22.00 per 100      \$180.00 per 1000**

**Topper.** Rich, velvety maroon, a shade deeper than Seth Parker. The flowers are full and well formed. Long rigid stems. A real good commercial crimson. Sold under a three year agreement.

**\$22.00 per 100      \$180.00 per 1000**

**Crimson Sphynx.** A good bright crimson sport of our recent novelty introduction. The flowers are full and well formed. Production is very heavy. No restrictions.

**\$20.00 per 100      \$150.00 per 1000**

Alyssum Tet. Snowdrift

### ALYSSUM (Sweet Alyssum)

60,000 seeds per oz. Easily grown annual for bedding. Many growers sow several seeds direct in a 2 1/4" pot or band and thus save on transplanting.

**Carpet of Snow.** The uniform compact growth of this variety has made it the most popular sort we handle. Our strain is especially reselected. .... 1/4 lb. \$2.75 .20 .85

**Little Dorrit.** Makes dwarf compact balls of pure white flowers. One of the best. .... .20 .85

**Little Gem.** A select strain of this old favorite. .... 1/4 lb. \$2.75; 1/4 oz. \$0.30 .20 .90

**Maritimum.** Tall growing honey scented. .... .20 .60

**Violet Queen.** Attractive violet flowers make this a nice item for edging and contrast. .... 1/4 lb. \$4.25; 1/4 oz. \$0.45 .20 1.35

### New Tetraploid Alyssum SNOWDRIFT

A new flower produced by the miracle drug colchicine. Grows one foot tall, it's rugged, it's vigorous! Bears masses of snowy white blooms on uniform plants. Stems closely approach hyacinth candytuft and are nice to cut.  
Pkt. \$0.40; 1/4 oz. \$0.75; oz. \$2.75

### AMARANTHUS

Tr. Pkt. Oz.

30,000 seeds per oz. Useful plants for summer bedding and display.

**Molten Fire.** Brilliant poinsettia-like tips. .... .20 1.10

**Tricolor Splendens.** Yellow, red and green. .... 1/4 oz. \$0.30 .20 1.10

### ANCHUSA

**Blue Bird.** 1200 seeds per oz. Sprays of forget-me-not like, indigo blue flowers are produced freely. Excellent to cut. .... 1/4 oz. \$0.30 .20 .85

### ANEMONE

**Coronaria St. Brigid, Creagh Castle Strain.** 40,000 seeds per oz. Extra fine flowers on long stiff stems. Flowers four months after sowing. Requires cool temperatures and rich light soil. It is claimed that seedlings produce better cut flowers than bulbs. .... 1/4 oz. \$1.25 .60 3.95

**De Caen Single, His Excellency.** Brilliant scarlet. .... 1/4 oz. \$0.75 .55 2.75

**Single Blue** .... 1/4 oz. \$0.75 .55 2.75

### ARCTOTIS

**Grandis (African Lilac Daisy).** 9000 seeds per oz. Pure white daisy-like flowers with reverse of petals lilac. Excellent long lasting cut flower. .... .20 1.25

**Hybrid Autumn Shades.** A fine border plant growing one foot tall with large daisy-like flowers in many shades of red, bronze and yellow. .... 1/4 oz. \$1.45 .60

### ASPARAGUS

750 seeds per oz. Sow in early spring. Soak seed for 24 hours. Germination is usually slow, 30-50 days. Pot in light fertile soil and grow at a temperature of 60 degrees.

**Plumosus Nanus** .... 4 oz. \$7.95 .65 2.25

## *Snap*s for Greenhouse Forcing

ORIGINATOR'S STRAINS

Modern varieties have really "snapped" this flower back into popularity. There are few flowers that are as profitable for the greenhouse grower. With proper selection of varieties and variation of sowing dates, it is possible to have flowers almost the entire year. There is a good market in June and July, especially for white, that is not now being adequately supplied.

### THE HYBRIDS

Uniform, free flowering, hybrid vigor, all go to making an article that is profitable to grow. Because of the extra vigor, it is best to be careful that you do not overfeed.

**Barbara.** Large flowered bronze with a pink throat. Considered by some, the best bronze hybrid.

**Better Times.** One of the older hybrids. The color of the Better Times rose and the habit of Christmas Cheer. .... 1/2 Pkt. **\$1.25**; Pkt. **\$2.00**

**Christina.** Bright pink shade somewhat deeper than Mary Ellen. It is earlier than Mary Ellen and the flowers are larger and more closely spaced.

**Christmas Cheer.** The popular variety which is now the standard rose pink.

**Dorcas Jane.** Fine soft pink.

**Fringed White Snow.** Pure, clear white. Best for midseason to late.

**Indian Summer.** Medium bronze, lighter than Lady Dorothy.

**Jubilee.** By the introducer of Maryland Pink. A light golden bronze shade with overtones of pink. Has large individual florets and a large full spike. 1/2 Pkt. **\$2.00**; Pkt. **\$3.50**.

**Kathleen.** Color similar to Mary Ellen but superior in all other respects. An all season variety, **extra vigor makes it possible to use Kathleen with good results for summer flowering.** Outstanding for keeping quality. Awarded Gold Medal by both N. Y. and N. J. florist clubs.

**Mary Ellen.** Popular silvery pink.

**Maryland Pink Improved.** Longer stronger stems and larger spikes. 1/2 Pkt. **\$2.00**; Pkt. **\$3.50**.

**Maryland White.** Quality paper white hybrid, equal in earliness, yield and growth to Maryland Pink. 1/2 Pkt. **\$2.00**; Pkt. **\$3.50**.

**Mountain Pink.** Clear, rose pink similar to Cheviot Maid. Slightly later than Christmas Cheer. Vigorous clean grower.

**Patricia.** Vigorous yellow. Habit of growth similar to Margaret but blooms earlier.

**Priscilla Ann.** New early velvety crimson by the introducer of Christina and Mary Ellen.

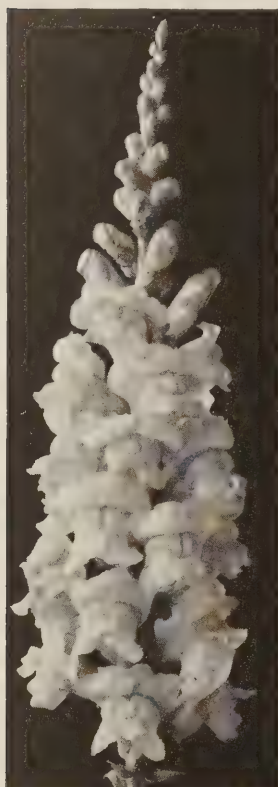

**Gold Mine.** A rich sparkling yellow, much superior in flower, stem and production to the old favorite Ethel. We consider it one of the best yellows.

**Gold Rush.** Quite similar to the above, except that it is several shades lighter in color. 1/2 Pkt. **\$2.00**; Pkt. **\$3.50**

**Red Wing.** Deep velvety red with the true hybrid vigor.

**Rockwoods Early Pink.** Pastel pink good for the entire season.

**Sunglow.** This was the first bronze hybrid. It has been under test for several years and we think highly of it. The color is a golden bronze shade, and it breaks freely and flowers early and throughout the winter.

Prices any of the above hybrid Snapdragons, unless noted — 1/2 Pkt. **\$1.75**; Pkt. **\$3.00**

## Fine Asters

(12000 seeds per oz.)

Wilt resistant Asters are the result of many years of selection. The disease organism is carried in the soil and persists indefinitely. It is easily spread and may only be destroyed by sterilization. Yellows is spread mainly by leaf hoppers, and, to prevent infection, cloth or greenhouse protection is necessary. Spraying the plants and surrounding vegetation with DDT will help.

(Varieties most popular with our customers are marked \*.)

### Two Fine New Asters

We recommend them to you

#### NEW BALL WHITE.

Exceptional doubleness and fine, stiff stems are the outstanding points about this new, large flowered pure white aster. Blooms about Aug. 25 and quite wilt resistant.

#### NEW BALL SHELL PINK.

Large fully double flowers of soft shell pink carried on long stems. Quite wilt resistant and rarely shows the center. Blooms Aug. 20 and it is excellent flowered under lights in early Spring. Throws few laterals therefore requires little disbudding.

Price on the above two new Asters: 1/2 Pkt. \$0.80; Pkt. \$1.50  
1/4 oz. \$2.50; oz. \$7.50; 4 oz. \$21.00

## Petunias

### ALL DOUBLE

The following are selected varieties chosen for their quality and popularity. Double petunias make a reasonably priced yet profitable pot plant for Easter and Mother's Day sales. November or December sowing is necessary to produce 4" and 5" plants.

**Allegro.** Rich salmon. A real knockout. The most popular all double we offer. Immense flowers, a brilliant attractive color and vigorous yet compact plants.

**Caprice.** Rose pink blooms on compact plants.

**Gaiety.** Blotched pink and white. Medium size, very double blooms on compact plants.

**Loveliness.** Soft light pink. A really lovely shade. Occasionally some plants may need pinching to keep them low.

**Minuet.** Lavender. Flowers are only medium size and plants grow rather tall and must be pinched.

**Nocturne.** Deep rich velvety purple. Semi-double flowers, true grandiflora type.

**Purple blotched white.** Another popular color with us. No two flowers are alike and the general effect is gay and lively.

**Rhapsody.** New double for 52. Burgundy wine purple. Dwarf, vigorous, large flowered, fully fringed. Nice combined with white.

**Sonata.** The finest white. Well fringed and ruffled, extra large pure white blooms, produced on medium dwarf vigorous plants.

Price on any of the above colors—1/2 Pkt. **\$2.75**; Pkt. (1,000 seeds) **\$4.50**; 1/64 oz. **\$16.00**; 1/32 oz. **\$29.50**.

**America A.A.S.** A greatly improved strain of this popular variety. The deep rose flowers are medium sized, all double carnation type but they are produced in great abundance on compact vigorous plants.

1/2 Tr. Pkt. **\$1.35**; Pkt. **\$2.50**; 1/64 oz. **\$8.00**; 1/32 oz. **\$15.50**

# Florist's Stocks

(19,000 seeds per oz.)

This important cut flower assumes even greater importance as labor and other costs rise. They are best grown in a temperature of 50-60 degrees. Sowing direct into the bench where they are to bloom makes for stronger, more vigorous plants. Rows are usually made 6 inches apart and the plants are thinned to stand approximately 3 inches. Selection of the stronger seedlings will have a tendency to increase the percentage of doubles. Proper feeding with greenhouse Vigoro or Hy-Gro (every two weeks until buds form) will be found beneficial and greatly improves the quality.

## GIANTS OF CALIFORNIA

This type is similar in habit to the Bismarck, except that they are much stronger growing with longer stems, larger flowers and spikes. Planted 6 x 8, they will produce a number of stems; however, grown close, 3 x 6, they can be grown to a single stem like the columns. Many consider Santa Maria, grown in this manner, the most profitable of all stocks.

# SOMERSET'S

## Perennial Flower Seeds

There has been a brisk demand for the better perennials during the past few years, and the supply has been inadequate. The cut flower value of some items is considerable, and it is often available at a time when other cut flowers are in short supply.

Seed is a cheap and quick way to obtain a stock of many items. Some items are tricky to germinate satisfactorily, but most can be easily raised when sown in early spring, either in the greenhouse or cold frames. Light freezes will not harm most items, and best results are obtained while the weather is cool.

Midsummer sowing is recommended by some authorities, and the seed of many items can be germinated successfully at that time. Greater care, however, is necessary, as weather conditions are less favorable, and under hot humid conditions, results are often unsatisfactory. We shall, at all times, endeavor to give you seed of the best possible strains and viability.

#### HYBRID #4

Last season we grew for trial a number of various F 1 and F 2 hybrids. The variety we have selected as being outstanding among all was Hybrid #4. This is an F 2 hybrid which will produce solid, well-flavored 5 1/2 oz. fruit, 10 days before Rutgers. When well fertilized, as all hybrids should be, its production is exceptional.

Golden Ponderosa. 115 days. A yellow form of the Ponderosa and preferred by some because of the large sized fruit.

1/4 oz. \$0.35 .95 2.85

Jubilee. 100 days. A new and truly different sort. Orange yellow in color, it is attractive for salads and juice. Especially recommended for the home garden.

Pkt. \$0.20 .95 2.85

Marglobe Certified. 100 days. Our strain is wilt resistant and a vast improvement over the original stock. It has been perfected by individual plant selections to yield over 10 tons per acre in many sections..... .80 2.50 8.00

### TOMATOES—Continued

Oz. 1/4 lb. Lb.

Michigan Forcing. Developed especially for growing under glass but may also be used outdoors, if staked. A heavy producer of medium sized fruit.

1/4 oz. \$0.35 .95 3.25

Oxheart. 118 days. Different in shape from all others resembling a beef heart. The flavor of the pink fruits is mild, and they are unusually large with a solid structure.

1/4 oz. \$0.45 1.25 3.50

Ponderosa. 115 days. A very large flat, late, pink fruited variety for the home garden. Inclined to crack.

1/4 oz. \$0.35 .95 2.85

Pritchard or Scarlet Topper, Certified. 95 days. Popular with canners because of its dark red color and solid fruits, also because it produces a heavy crop over a short period.

.70 2.35

#### QUEENS

A new variety developed by the Prof. Schemerhorn and given the early name of Rutgers University. Fruit is not quite as large as Rutgers but it is earlier, more uniform and produces more freely.

1/4 oz. \$0.50; 1 oz. \$1.75; 1/4 lb. \$6.00

Red Jacket. New medium early, developed as a juice tomato. Produces heavy foliage which protects the fruit from the sun. ....1/4 oz. \$0.45 1.15 3.45

Rutgers Certified. 100 days. Introduced by the N. J. Experiment Station this variety is highly popular with canners, home and market gardeners alike. A very strong grower with fruit slightly larger than Marglobe.

1/4 oz. \$0.25 .75 2.45 6.95

San Marzano (Italian Red Plum). 90 days. Very solid small fruits much used in making tomato paste. It also makes a high quality home canned juice. Our strain is extra select.

1/4 oz. \$0.60 \$1.95 6.50

Stone Certified. 115 days. An old favorite, late sort with heavy solid dark red fruit, excellent for canning.

1/4 oz. \$0.25 .75 2.45 6.95

Valiant. 90 days. A new variety destined to replace Earliana. Vines are sparse and open and will produce a large crop of fruit averaging seven ounces.

1/4 oz. \$0.25 .75 2.45 6.95

Victor A.A.S. 85 days. A new type with a self topping vine. Uniform and very early ripening, it is highly recommended for home garden. ....1/4 oz. \$0.30 .80 2.75

Red Cherry—Yellow Plum—Yellow Pear. Small fruited for salads, preserves, pickles and ornaments.

1/4 oz. \$0.25 .80 2.75

California Honey. 77 days. .... .30 .85

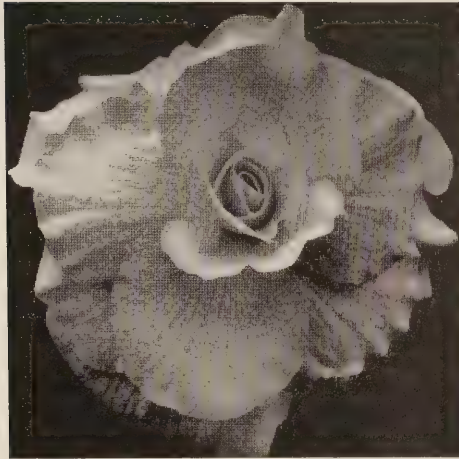

NOTE: Do not use D.D.T. sprays or dusts on beans, cucumbers, cantaloupes or melons.

# BULBS

## Begonias

**Tuberous Rooted**

Attractive and showy these produce excellent reasonably priced pot plants in a short time and they are nice for outdoor bedding in semi-shaded places. Will flower midwinter under lights.

Forcing can be started in February, March or April, depending on time of bloom desired. Soil should be light and porous and the bulbs set to a depth of one inch. Soil should be kept moist but not wet. We offer Belgian grown bulbs ready in January.

### DOUBLE CAMELLIA TYPE

The largest and most popular of the double forms. Individual flowers 5-8" in diameter. Nice for corsages and other cut flower purposes. **Crimson, Yellow, Rose, Scarlet, White, Orange, Salmon, Copper.** Hand-blended mixture.

1½-2" \$10.00 per 100; \$ 90.00 per 1000  
2" and up \$12.00 per 100; \$110.00 per 1000

### FIMBRIATA (Double Frilled Carnation Type)

Petals are frilled with serrated edges, flowers when in full bloom resemble a Carnation. Colors the same as in the Camellia Flowered Type.

1½-2½" \$11.50 per 100; \$105.00 per 1000

### PENDULA or LLOYDII

Produce great masses of hanging clusters of medium sized double blossoms. Nice to cut and for pots. Same colors as above.

1½-2½" \$11.50 per 100; \$105.00 per 1000

### MULTIFLORA TYPE

These are especially recommended for outdoor group plantings as they are more resistant to the summer heat. The varieties we offer below are extremely free flowering and are suited for forcing in pots as well as for bedding. Bulbs appear to be deformed but this is a natural characteristic of this type. All bulbs 1-2" in diameter.

## Caladiums Fancy Leaved

Colorful tropical plants with brilliant foliage. Best grown in a soil composed of coarse loam and ¼ rotted manure and leaf mold. Start with 65-70 degrees bottom heat. Water sparingly until good roots develop.

Minimum order 50 bulbs.

**Candidum.** Fine Easter variety. Leaf snow-white with green veins and network; narrow green border. Ours is the true Candidum.

**Crimson Wave.** Large deep green leaf with crinkled transparent crimson or scarlet center and many crimson spots toward edge. Strong grower.

**Itacapus.** Entire leaf dark red of a rust shade; narrow border with red dottings. One of the most beautiful.

**John Peed.** Shining bright metallic red center on moss-green ground.

**Lord Derby.** Transparent rose with dark green ribs and narrow green edge. Very popular.

**Madam Truall.** Replacement for Marie Moir to which it is superior. Waxy leaf with a beautiful red center, green rim and black stem. New.

**Mrs. P. Sander.** Roundish, dark green leaf heavily blotched transparent deep rose.

**Mrs. W. B. Haldeman.** Medium leaf of bright pink with narrow green edge. Very popular and fine.

**Reconcavo.** A fine, strong grower. Delicate rose center with carmine ribs. One of the best colors.

**Scarlet Pimpernelle.** Straw or yellowish leaf with large scarlet center void of ribs or veins.

**Thomas Tomlinson.** Bright crimson center and blotches; narrow green edge. Makes many leaves.

## ROSES are in short supply

When this catalog went to press our supply of Hybrid Teas and Floribundas was almost entirely booked by rose customers of long standing.

Disastrous freezes are responsible for a shortage of our good Northwest grown roses.

We regret that we have not been able to supply all the roses you want. Next season we expect to have a better than normal supply of those good Northwestern plants and we look forward to again supplying your needs.

**NOTE:** After we finish grading there may be a small surplus. We will be glad to send you a list.

### THE NEW DAWN

#### Awarded the Bloomfield Gold Medal

The hardy climbing rose that blooms all summer. The first plant ever patented, the New Dawn has everything. The growth is vigorous and healthy, the plant is hardy in the entire U. S. The foliage is a dark glossy green that glistens as though varnished. The flowers are medium in size, double, with attractive high pointed buds, blush pink in color and intensely fragrant. Practically every growth terminates with a flower. Keep it growing and it will flower all summer and the last rose of summer may well be The New Dawn.

### PAUL'S SCARLET — Climber

Probably the most popular climbing rose ever introduced. The vivid scarlet blooms literally cover the plant in June and the show lasts for weeks. There is always a demand for plants during its flowering season.

### BLAZE — Climber

Introduced as the Everblooming Paul's Scarlet, established plants will, under good conditions, produce an occasional burst of bloom after the main blooming period in June when it is covered with a mass of bright scarlet.

### FRAU KARL DRUSCHKI (White American Beauty)

Our strain of this beautiful white June rose is as free flowering as many Hybrid Teas. Makes a beautiful pot plant for Mother's Day sales and it is a nice garden subject.

### MAGNA CHARTA

The fragrant pink favorite for pot forcing for Easter and Mother's Day. It is losing some of its popularity to the ever-blooming Hybrid Teas, but no rose will produce a more perfect pot plant. We specialize in producing heavy forcing grade. Add 5c each for XXX grade. We suggest you place your order now for Fall delivery.

**Price of any of the above five varieties.** Strong field grown plants.

2 yr. No. 1 grade—  
\$0.75 ea.; \$7.00 per 10; \$65.00 per 100; \$600 per 1000

2 yr. No. 1½ grade—  
\$0.65 ea.; \$6.00 per 10; \$52.50 per 100; \$475 per 1000

Selected forcing grade plants except where noted 10c extra.

## Miniature Roses

A charming novelty that can be made into a profitable item. Few people can resist their appeal.

They are winter hardy and easy to grow. They force easily and may be brought into flower in about 8 weeks. We can supply dormant plants out of 3" pots.

*Tom Thumb (Pl. Pat. No. 169). Crimson buds open into perfect tiny roses. ....	.50	.42½
Varieties marked * in limited supply.		

**Potted Roses bring premium prices.** You cut your losses, extend your selling season, and give more customer satisfaction.

**Cloverset Pots** are practically standard for this purpose. The No. 2 size is used mostly for roses although No. 1 is satisfactory especially if you can turn your stock quick enough. See page 64 for prices.

**Directions are simple.** Cut your roses back two-thirds, taking out all thin branches. Pot firmly using a soil containing at least one quarter rotted cow manure or peat. Pack the soil firmly around the roots using a piece of broomstick or hammer handle. Water so that soil is **wet all the way through**. After this keep the soil slightly on the dry side until growth starts. Protect the tops against drying winds and keep moist. Feed with liquid manure or fertilizer when the plants show buds.

**Roses are perishable even when dormant.** Protect the roots and tops against drying and rapid temperature changes, at all times.

## Hardy Plant Specialties

### ASTER

10 100

**Frikarti Wonder of Stafa.** An excellent cut flower. Forms bushes 2-3 ft. high producing from midsummer until frost quantities of long stemmed single pale blue flowers with small yellow centers. Strong plants. 3" pots 2.00 15.00

### BLEEDING HEARTS (*Dicentra Spectabilis*)

This is a specialty with us and we grow many thousands. Our method of culture produces a root that is easier to pot and handle. For Mother's Day these plants require only cold frame protection and if forced for St. Valentine's Day or Easter they can be flowered in three to six weeks, depending on temperature. Reasonable in price and showy. You can always sell well-grown plants.

## HARDY PHLOX

Phlox Growing at Somerset

This long has been a specialty of ours and we try out new varieties each season including seedlings of our own. A variety must definitely have merit or fill a need before it is included in our list. You can select any variety with confidence that it is the best of its color and it will be true to name.

**Sir John Falstaff (T).** A new introduction with the largest individual florets and flower heads we have ever seen, and it is fragrant. The color is an attractive shade of salmon pink flushed scarlet. The best introduction of many years. It sells on sight.

**\$3.00 per 10; \$25.00 per 100**

**A. L. Schlageter (T).** Favorite bright scarlet.

**\$2.50 per 10    \$18.00 per 100**

**Adonis (M).** Rich deep scarlet.

**Daily Sketch (T).** Soft pink with deeper eye. A very attractive and popular variety..... **\$2.50 per 10    \$18.00 per 100**

**Fidelio (M).** Deep red center shading to white tinted pink edge. Vigorous and attractive.

**Flash (T).** Splendid dark red. A rich deep color yet not dull.

**Fuchsia (T).** Strong growing. The name best describes the color which some do not like. The center shows a lighter eye.

**Mary Louise (M).** Most popular white.

**Miss Lingard (T).** This old favorite flowers several weeks before the other varieties. The long slender heads of flowers are nice to cut and for decoration.

**Moonlight Dream (T).** Creamy white with green tinted center. Very attractive.

**Progress (T).** Large flowered "blue." One of the best of this color.

**Purple Heart (T).** The finest purple. A blue violet shade that is deep yet lively.

**Rheinlander (M).** Attractive deep salmon pink. Clean healthy growth.

**Salmon Beauty (M).** Soft salmon with white eye. Large individual flowers.

**Salmon Glow (L).** Rich salmon pink. Healthy vigorous growth.

**Spitfire (M).** Brilliant orange scarlet. A vivid outstanding color. .... **\$2.50 per 10    \$18.00 per 100**

**Starlight (M).** Each floret has a white star on a violet ground. The general color effect from the distance is medium blue.

Price any of the above Phlox, except where marked—

## *Insecticides - Fungicides - Fumigants*

Prices subject to change without notice

### BENZINE HEXACHLORIDE

A form of benzene hexachloride. **Better than D.D.T. for thrips.** Controls aphids, whitefly, lace fly, centipedes, roaches, Jap beetles, strawberry beetle and many others. 50% wettable for spraying.

5 lbs. \$3.45

### BENZO-FUME PRESSURE FUMIGATORS

Guaranteed to contain not less than 17½% of Azobenzene. These operate similarly to the familiar Nico-Fume Pressure cans. Recommended for control of greenhouse red spider. **Kills the eggs.** One pound will treat approximately 10,000 cubic feet. The ease of application and efficiency should make this as popular as the Nico-Fume.

½ lb. Cans—\$1.75 for six, \$3.20 for 12

1 lb. Cans—\$3.00 for six, \$5.50 for 12

### BLACK LEAF 40

Nicotine Sulphate for use against aphids, thrips and other sucking insects. Mainly used for outdoor crops because of its prolonged action.

5 lb. Tins \$7.40

10 lb. Tins \$12.65

### CARBON BISULFIDE SOIL FUMIGANT

A cheap and easily applied liquid useful for soil treatment. When placed in the soil it releases a heavy gas that is highly toxic to all forms of insects. When treating beds 1 lb. will treat approximately 16 sq. ft., and 2 lbs. a cubic yard of potting soil. The above quantities will kill most weed seeds and some diseases and all insects. It will also condition the soil leaving it in a friable condition. For complete sterilization formaldehyde may be added.

NOTE: This material has a flash point "Below Zero Degree C" about the same as gasoline and must be handled carefully.

50 and 100 lb. Non-returnable drums \$0.16¼ lb.

550 lb. (55 gal.) Drum.....\$0.11¼ lb.

(55 gal. Drums must be returned in 90 days.)

Must be shipped Freight or Motor Freight.

### CED-O-FLORA PLANT SPRAY

Recommended for Mealy bugs even on delicate plants like Coleus where they are hard to eradicate. **Will also give a finish and polish to foliage** that is highly attractive. Also excellent for spider and scale.

Quart \$1.85

Gallon \$5.00

### CERESAN IMP.

Has been found excellent to control Fusarium Crown Rot and Dry Rot on Gladiolus. Use at the rate of ½ lb. 25 gal. of water, plus 5 tablespoons Grasselli Spreader. For Calla Rot soak bulbs 1 hour in a mixture of 1 lb. to 50 gal. of water and 10 tablespoons full Grasselli Spreader.

1 lb. \$1.35 4 lb. \$4.50 40 lb. Drums \$38.50

### CUBOR ROTENONE COATED SULPHUR DUST

Contains 75% pure rotenone. Effective against a wide variety of insects especially bean beetle and the sulphur prevents mildews and rusts.

4 lb. Bags \$1.25 ea.; Case of 12 \$13.25

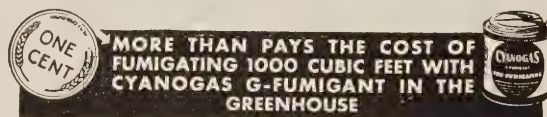

50 lb. Bags .....\$12.00

### CUPROCIDE (Yellow)

Finely ground copper oxide. **Stops damping off.** Use 1 oz. and 3 gals. of water. Better than bordeaux as a spray and will control most diseases where copper is indicated. 1½ lbs. to 100 gals. of water is the usual solution.

3 lb. bags \$2.55; 4 bags or more \$2.45 ea.

### CYANO GAS G-FUMIGANT (Calcium Cyanide)

Excellent to control white fly, mealy bugs, leaf tyers and many other hard to control insects. Also useful to break dormancy for early forcing on such items as Astilbe, Deutzia, Lilies, Iris, Roses and Hydrangea.
